The Power of a Plan
Captain Kelly delivers inspiring Johnson & Johnson keynote address
By Jaimie Siegle

Judging by the intimidating resume — U.S. Navy veteran, former astronaut, author and cancer survivor, just to name a few — one might wonder if convention keynote speaker Mark Kelly is actually from this planet. But Kelly quickly dispelled these speculations during his keynote presentation at the General Session late Friday afternoon.

“Let me just say I come in peace,” Kelly said, eliciting laughs from the audience and setting the tone for the rest of his lighthearted, inspirational speech. Donning a bright blue NASA jacket decorated with patches reflecting dozens of flight missions (he’s completed 39 in total), Kelly assured attendees that his childhood was very ordinary: Raised by working parents

Cpt. Mark Kelly, former NASA astronaut and Navy combat pilot, gives the crowd insight to his fighter pilot days during the J&J Day keynote address.

District Eight Wins Quiz Bowl
Congratulations to the team from California Baptist University, who won an entertaining Quiz Bowl on Friday night. Team members included Corrie Bober, Kelsie Gartner and Naclaysia McGee.

CAN’T-MISS STUFF TODAY!
- Pinky Newell Scholarship & Student Leadership Breakfast

Support that matters.

JOHNSON & JOHNSON is proud to be an official sponsor of the 2014 FIFA World Cup™ Brazil.

JOHNSON & JOHNSON athletic tapes provide superior unwind tension roll after roll, to give you maximum use and performance, right down to the core. The custom fit and support provides your athletes with the best possible protection against injury. And, as a founding strategic partner of the National AthleticTrainers’ Association, Johnson & Johnson continues to deliver outstanding support to you, your association and your profession.
NATA Welcomes Four New Board Members

By Sanette Ludick

Paul Ullucci, ATC, DPT, SCS; Julie Rochester, EDD, ATC; Bart Peterson, MSS, ATC; and Scott Sailor, EDD, ATC, have successfully completed their duties as members of the NATA Board of Directors. Now, NATA welcomes four new directors: Tim Weston, MEd, ATC (District One); Tory Lindley, MA, ATC (District Four); Chris Mathewson, MSS, ATC, CSCS (District Seven); and Carolyn Peters, MA, ATC, CSCS (District Eight).

New District One Director Tim Weston has made it his personal goal to support national initiatives that would significantly increase the number of certified athletic trainers at the secondary school level. As a collegiate athletic trainer at Colby College in Maine, Weston has witnessed firsthand the differences between student athletes who have had direct access to ATs at the secondary school level and those who have not. Weston believes empowering members with the appropriate tools at the secondary level will not only improve the work environment for ATs but could also lead to increased employment opportunities.

Weston also wants to ensure NATA membership remains affordable and valuable for ATs across the country. “When you pay your membership dues, you are not only receiving benefits, but you are investing in the future of our profession,” he said.

After serving 20 years in various leadership roles, Weston is excited to be District One Director. He said the decision to get involved with volunteer leadership was easy. “I believe each one of us can make a difference in the athletic training profession,” he said. “My mentors taught me the importance of being involved in order to effect both growth and challenges that arise within our profession.”

Tory Lindley, associate athletic director at Northwestern University, is looking forward to mentoring young professionals and students as the new District Four Director. Lindley intends to be accessible and responsive to the GLATA Executive Council as well as the NATA membership.

“Serving as District Director provides a chance to shape our profession’s future on behalf of 6,000+ GLATA members,” he said. “Joining the NATA Board of Directors will be an outstanding opportunity to seek out new mentors, develop new professional relationships and continue on a path of lifelong learning as an AT.”

When it comes to volunteerism and promoting the AT profession, Lindley believes in the power of group effort. He said he likes to remind the AT staff at Northwestern that although “one person can make a difference, it inevitably takes a unified group of people to sustain positive change.”

New District Seven Director Chris Mathewson, the head AT for Ponderosa High School in Parker, Colorado, hopes to improve athletic training in secondary schools. His main goals are to boost the role of the AT within the health care system while advancing the youth sports safety agenda and supporting athletic training research.

Mathewson didn’t originally foresee himself taking on a national leadership role and was satisfied doing his share in District Seven, but he ultimately realized that to grow means to challenge oneself and to work outside of one’s comfort zone. His work as director-elect throughout the past year has prepared him for this important role and he’s excited about the future progress of the profession. “With the exceptional ATs on the BOD, we can get really awesome things done,” he said.

For Mathewson, volunteerism has always been part of the job. “You work long hours, you work with great people, you work with some knuckleheads, you work in intense situations, you get lots of free t-shirts, sweatshirts, and hats, and you serve your profession,” he said. Mathewson loves being an AT and said he cannot imagine doing anything else.

Carolyn Peters, District Eight Director, believes all ATs should contribute to the advancement and promotion of their profession. “Regardless of location, setting or position, every single person can have a voice and make a difference,” she said. For Peters, getting elected as a Board member was only her latest step in her history of volunteerism.

“REGARDLESS OF LOCATION, SETTING OR POSITION, EVERY SINGLE PERSON CAN HAVE A VOICE AND MAKE A DIFFERENCE.”

-CAROLYN PETERS, MA, ATC, CSCS

Prior to being elected as District Eight Director, she was the District Eight secretary. Her previous role as the Chair of the NATA District Secretaries/Treasurers Committee gave her a valuable glimpse into how NATA operates. Those previous volunteer roles inspired her to get even more involved. As a member of the Board, Peters’ goal is to approach her professional duties passionately while always promoting the profession.

All four new Board members have a shared enthusiasm for advancing the athletic training profession and supporting their fellow ATs across the country. Peters summed up their mission as Board members, saying they have to always be “mindful of what is best for athletic training as a whole.”
My First Convention: Q&A with AT Student Layne Jackson

By Sanette Ludick

We caught Layne Jackson, 20, from Erskine College in Due West, South Carolina, at the Ron Culp/NBATA Cadaver Workshop and asked about her first NATA convention experience.

NATA: Why did you decide to make this year’s convention your first?
JACKSON: One of my friends attended last year’s convention in Las Vegas, and she told me how amazing it was. A lot of my professors are here as well!

NATA: What has been the highlight of the convention thus far?
JACKSON: I talked to former NATA President Kent Falb this morning. That was really great!

NATA: Which programs and events have you participated in since arriving?
JACKSON: This morning we attended the Otho Davis Keynote Address: Take a Risk. Take Your Career to the Next Level. Then, I went to two ATSS Breakout sessions: “Putting Functional Exercise into the Sport Specific Returns” and “Athletic Injuries and Psychology – What Athletic Training Students Should Know.” All of those were very informative, and I took a lot of notes. I learned a lot.

NATA: Any one specific event or experience you will take home with you?
JACKSON: I think the psychological aspect of athletic training is not something that is widely known; mostly we deal with injuries, so learning about the psychological aspect of athletic training was really interesting to me – making sure that you have a connection with your athletes so you can go further and help them not only on a physical level but an emotional and mental level as well.

NATA: What does athletic training mean to you?
JACKSON: As an athlete at the collegiate level, I realize just how important my athletic trainer is to me. Athletic training is not only important at the collegiate level but in high school settings as well. I know that if I’m injured they will and can take care of me.

NATA: Who do you look up to in the industry?
JACKSON: Kent Falb. I look up to him. He comes to our school once a month and talks to us. Every time I have a question for him, he challenges me. He challenges us to think outside the box.

CATCHING UP WITH CRAMER

The longtime NATA sponsor’s director of marketing, Rob Mogolov, on why the Cramer team looks forward to convention each year.

As sponsor of the Cramer Student Lounge and Cramer Student Reception, why is it important to reach out to student ATs/future athletic trainers? Cramer has always been about the future of athletic training. Our history is built on promoting the advancement and growth of the athletic training profession; that’s why Chuck and Frank were so willing to finance NATA as an organization the early days, and why Cramer promoted the Student Workshop program for so many years. Our feeling has always been that it is our responsibility to promote not only Cramer Products, but the profession as a whole. Supporting students is our way of helping build a solid foundation for the athletic training profession for years to come.

Is there anything specific at the Cramer booth this year that ATs and AT students should be looking out for? Athletic training is constantly evolving; it isn’t just about prevention and rehab but about recovery and performance. Our new relationship with the Performance Health group addresses all of those issues. Our goal is to provide athletic trainers with a complete package of solutions that they can use to address the changing demands of the job. There are a lot of great new products to check out – our new family of brands includes Biofreeze and Theraband—as well as our new line of performance apparel.

As a longtime participant at the NATA convention, what does Cramer enjoy or look forward to most about this annual event? I think I can speak for everyone at Cramer in saying that the best part of the convention is seeing all our friends form across the country in one place. The thing about athletic training as a profession is it is essentially one big family. The atmosphere at the show is always great, and when you throw in getting to see people you haven’t seen in a couple of months, you really can’t top it.

Why is the Cramer giveaway consistently such a hit? I don’t know – I really think it is driven by the tremendous loyalty that we have been fortunate to receive from the athletic training community – they are the ones who have really made it such an event. We try to come up with unique ideas that we hope everyone will like and be able to use in some way throughout the year. To us it’s more than just handing out a trinket, but a way of saying thanks to everyone there for the years of support that we have received from the athletic training community.

Complete the following sentence: “Athletic trainers are ______.”...Like our family.
Please join the National Athletic Trainers’ Association as we thank our partners and sponsors for their support of NATA, the 2014 NATA Clinical Symposia & AT Expo and the athletic training profession!

Welcome Reception

Jay Albrecht, PhD, ATC, and Katie Lyman, PhD, ATC, have fun catching up during the welcome reception.

Lauren Correa, ATC, left; Dana Woodard, ATC, and Sara Sullivan, MS, ATC, LAT, enjoy the music at the welcome reception.

Registration

Azalea Hancock, left, and Retta Riley, MAT, ATC, volunteer their time in registration during the first day of the convention.

NATA Hall of Famer Randy Biggerstaff, MS, ATC, LAT, greets athletic trainers at Georgia Street Block Party on Wednesday night.
Ali Bush, ATC, is one of the hundreds who stood in line at the Cramer booth for a set of free earbuds during the opening day of the AT Expo.

Sean Venckus, ATC, LAT, CSCS, tries out the product at the Squid booth with Jeff Kinard, MPH, ATC, CSCS, during the opening day of the AT Expo.

Roger Sancho, ATC, CES, PES, helps with a jump roping contest during the NATA Ethnic Diversity Advisory Committee’s service project at the Keenan Stahl Boys & Girls Club on Tuesday. The committee hosted a field day for more than 200 children.

Katherine Bagnato, ATC, an instructor during the pre-conference career workshops, helps Evan Gumpert, MSED, ATC, and Kim McManus, ATC, with their casting technique on Wednesday.
The Hot Product Pavilion

The Hot Product Pavilion is a must-see destination at the NATA convention. Located right outside the AT Expo (Hall 1) in Crossroads Coronado, the HPP is a great place to see the latest sports medicine products at your own pace. Our Hot Product Pavilion is bigger and better than ever in 2014, so make sure to stop by to learn about the following innovative products:

2nd Skull® CAP

2nd Skull® is a protective headgear company with patented technology proven to add up to 35 percent more impact protection. 2nd Skull® CAP is for helmet-requiring sports like soccer. 2nd Skull® products are proudly made in the USA.

Adhesion Biomedical, LLC - Booth 555

SurgiScalp

SurgiSeal® Topical Skin Adhesive can replace sutures for incision or laceration repair to get your athlete back on the field faster. It is designed to save time during wound repair; provide a flexible, water-resistant, antimicrobial protective coating; and to eliminate the need for sutures.

Agency For Student Health Research - Booth 445

InjureFree

The time to improve sports safety is NOW! InjureFree connects all caregivers in your community with real-time injury reporting and alerts. Both HIPAA and FERPA compliant, InjureFree offers athletic trainers mobile app reporting and follow-up treatment updates while reducing administrative burden. Join the InjureFree network today! www.injurefreenata.com

Air Brit, LLC - Booth 207

Air Brit Air Suspension Knee Brace

The Air Brit Air Suspension Knee Brace is a one-of-a-kind knee brace that offers unparalleled comfort while providing the amount of support that YOU decide is needed! Whether you are an active athlete or just in need of additional support to relieve pain, our unique Air Suspension Technology allows you to maintain true mobility, versatility and flexibility without compromising support and comfort. Why not control your health by harnessing the power of air...Air Brit Air BRACE™

ALERT SERVICES, INC. - Booth 913

Squeaky Cheeks 100% Natural Body & Foot Powder

This is not just a personal care product, but one that energizes your lifestyle! This is a 100 percent all-natural, high-performance body and foot powder that is tale free and features soothing and energizing essential oils. For 10 years running, it’s the best formula available for chafing prevention, sweat reduction and odor elimination.

ALERT SERVICES, INC. - Booth 913

Alert ProCut Non-Stick Scissors

The time-tested Alert Pro Cut Scissors are now available with an upgrade. These scissors have a non-stick coating that withstands adhesive buildup and cleans much easier than chrome-coated scissors. You will find these non-stick coated scissors work great on Kinesio tape and Elasticin. Available in Booth 913 for $25 (show special only).

All-Star Sporting Goods - Booth 544

CryoHelmet

A new treatment for concussions, migraines, performance/recovery and more. Trauma accumulates over time from repeated impacts during practices and games. The CryoHelmet uses cold therapy to treat some of the inflammation that occurs with these injuries. Therapeutic hypothermia is a rapidly growing field in medicine. For the most up-to-date research, please visit www.icetoyourhead.com.

ARI-MED/ DIVERSA PRODUCTS GROUP - Booth 1013

Our A225i Skatewheel Deluxe Med Bag has been resized to fit in an overhead bin. It comes with double lid with instrument sleeves, multiple outer pockets, movable inner dividers, a large bandage kit, skatewheel system and heavy duty retractable handle.

ASEA - Booth 656

ASEA and RENU 28

ASEA’s proprietary products are the world’s first and only molecular supplements with stabilized Redox Signaling Molecules that detect and repair cellular damage and accelerate healing. ASEA mobilizes fatty acids for athletes to use as a better fuel source, sparing muscle glycogen. For better performance, endurance and recovery, ASEA and RENU 28 provide the edge you need!

Bauerfeind USA, Inc - Booth 1155

genericFoot, Solid Black

The Difference is the KNIT and the FIT. This comfortable, moisture-wicking, stretchable and compression in one flexible fabric wrap. The wrap’s versatility and flexibility without compromising support and comfort. Why not control your health by harnessing the power of air...Air Brit Air BRACE™

Biodex - Booth 912

System 4

The Biodex System 4 is a versatile dynamometer with applications in sports medicine/orthopedics, pediatric medicine, neurorehabilitation and neuromuscular research. Evidence-based clinical protocols combine science with practical application. Used in over 70 countries, by professional teams in Olympic training, Navy SEALS, NASA and the Russian cosmonaut program.

Biodex - Booth 912

Balance System SD

The Biodex Balance System™ SD improves balance, increases agility and develops muscle tone. Used by thousands for testing and training, vestibular rehabilitation and neurorehabilitation, the Balance System documents preinjury baseline, evaluates injury risk and helps determine post-injury return-to-activity. Specific training exercises include ROM, weight-shift, dynamic joint and core stabilization.

Biodex - Booth 912

Concussion Management

The Biodex Balance System SD quantifies the elements of balance pre- and post-injury, recognizing disturbances that cognitive testing alone could overlook. New System software includes expanded normative data and allows custom CTSIB protocols and modified BESS testing of postural stability. Objective reporting mitigates burden of return-to-play decision.

Biowave - Booth 312

BiowavePRO Neuro modulation Pain Therapy System

BiowavePRO®  is a patented advanced pain therapy system that delivers therapeutic electrical signals through skin into deep tissue blocking the transmission of pain, increasing range of motion, reducing stiffness and muscle spasm for up to 24 hours following a 30-minute treatment. Multiple treatments provide a cumulative benefit. BiowavePRO® is also used during AROM, PROM, exercise and stretching to facilitate rehabilitation. Athletes can move more resistance through a greater range of motion with little pain. BiowavePRO facilitates motion and manages pain simultaneously. Come see why over 80 percent of NFL teams prefer BiowavePRO.

BodyArmor Superdrink - Booth 232

BODYARMOR

BODYARMOR is a premium sports drink that provides superior hydration and is loaded with electrolytes, vitamins and coconut water. It is high in potassium, low in sodium and contains nothing artificial. It is available in six great-tasting flavors.

BREG INC. - Booth 306

FreeRunner™
The FreeRunner™ knee brace is the premier soft good for patellofemoral support. It combines a proprietary offset hinge for truly dynamic stabilization with the innovative low profile and ultra lightweight Smart-Zone™ compression fabric. The FreeRunner™ delivers support when patients need it most. The difference is dynamic.

Cardea - Booth 436

CardioScreen

CardioScreen is an ECG device designed to accurately identify life-threatening cardiac conditions in athletes. The Bluetooth device transmits electrical signals from the patient to a Windows PC for analysis. Algorithms in-tune with an athletic heart analyze the ECG and identify abnormal conditions associated with cardiac arrest.

Celliant Energy Textile - Booth 236

Baxsell

Celliant products are infrared – active through minerals which convert body heat into heating infrared light which penetrates deep into body tissues. All Celliant products, including the Baxsell, are designed to increase circulation, oxygen and nitric oxide levels, enhancing performance and healing.

CK Industries of the Big Bend, LLC - Booth 1538

Hatfield Strap

The Hatfield Strap is an innovative compact strap device that gives a highly effective stretch of the foot, calf, and hamstring (including the IT Band). One thing that really sets it apart from other strap devices is the shoulder strap that allows the user to relax while getting an intense stretch.

CRAMER PRODUCTS - Booth 1300

Cramer Wet Gear Elite AT

Multipurpose AT kit which features 100 percent waterproof materials and seams as well as waterproof zippers for the ultimate in moisture protection. Kit includes rigid, adjustable dividers and wall supports to protect contents and keep supplies in place. Dividers are removable for versatility. Ideal for keeping supplies and electronics safe from any environment, wet or dry.

Douglas Pads & Sports, Inc. - Booth 548

Moggin

The Moggin is the newest product on the market made specifically to reduce impact to the head that causes traumatic brain injuries and long term CTE. It is the first and only skull cap made to be worn underneath a helmet that has proven to REDUCE UP TO 85 PERCENT OF THE IMPACT when worn with a certified safety helmet.

Dr. Cool - Booth 1746

Dr. Cool Recovery-On-The-Go™ Wrap

Dr. Cool is the first and only product to combine ice compression and in one flexible fabric wrap. The wrap’s patented, chemical-free Coolcore cooling fabric has earned the prestigious Hohenstein Institute’s “Innovative Technology” award. Available in three sizes: 3” x 26”, 4” x 50”, 6” x 50”.

BodyArmor Superdrink - Booth 232

BIOYARMOR

BIOYARMOR is a premium sports drink that provides superior hydration and is loaded with electrolytes, vitamins and coconut water. It is high in potassium, low in sodium and contains nothing artificial. It is available in six great-tasting flavors.
Dynamic Tape (PosturePals) - Booth 455
Dynamic Tape
Dynamic Tape is highly specialized and designed to contribute genuine mechanical force into the kinetic chain. Working like a bungee cord, the unique, strongly elastic Dynamic Tape aims to absorb load, contribute to force generation, improve biomechanical efficiency and modify faulty movement patterns. Load reduction combined with powerful neurophysiological effects provide prompt pain relief, reduce metabolic demand, facilitate recovery and improve performance.

Gladiator by SGI - Booth 1631
Gladiators High Performance
Using our Power Grip® technology with two layers of 2mm EVA material surrounding a Nano-Shock Barrier, the High Performance is designed to absorb shock while 30 percent thinner than the Gladiator Pro. The ultra-thin Gladiator takes our patent-pending comfort design and provides the athlete with the highest level of comfort and protection possible.

HayZack Sports - Booth 1719
ICE IT!
Invented by an athletic trainer, ICE IT! is designed to keep water bottles cold through an entire practice or game. Simply fit the ICE IT! over your Gatorade or Powerade caddy handle and funnel the ice and/or cold water directly into the water bottles. ICE IT! can also be used on Cramer, Medco, Academy, Dick’s and Champion water bottles. ICE IT! is now in production and will be ready for the 2014-15 football season.

IBRAMED - Booth 1246
Neurolym
Complete electrotherapy unit capable to generate seven types of currents: TENS, FES, Interferential, Russian, Polarized and Microcurrent. Pre-programmed treatment protocols. Indicated for: muscular strengthening, increase of the muscular resistance, reduction of muscle spasticity, muscle paralysis, reduction of edema, analgesia, immediate and late post-surgery and conditions using medical-grade orthopedic support and graduated compression. Relieves pain associated with planter fasciitis, heel spurs and edema.

ING Source, Inc. - Booth 1739
FS6 Compression Foot Sleeve
The FS6 Compression Foot Sleeve offers medical-grade orthopedic support and graduated compression in a thin, light and comfortable sleeve you can wear under your normal socks. Relieves pain associated with plantar fasciitis, heel spurs and edema.

ING Source, Inc. - Booth 1739
CS6 Compression Calf Sleeve
The CS6 Compression Calf Sleeve offers medical-grade orthopedic support and graduated compression in a thin, light and comfortable alternative to standard compression stockings. Relieves pain associated with poor circulation, Achilles tendinitis, shin splints and cramps.

ING Source, Inc. - Booth 1739
KS6 Compression Knee Sleeve
The KS6 Compression Knee Sleeve promotes good circulation while relieving the pain of runner's knee and related conditions using medical-grade orthopedic support and graduated compression. As effective as bulkier related conditions using medical-grade orthopedic support and graduated compression in a thin, light and comfortable alternative to standard compression stockings. Relieves pain associated with poor circulation, Achilles tendinitis, shin splints and cramps.

ING Source, Inc. - Booth 1739
ES3 Compression Elbow Sleeve
The ES3 Compression Elbow Sleeve uses Compression Zone TechnologyTM to relieve the pain of tennis elbow and related conditions. The thin and light sleeve provides medical-grade orthopedic support and promotes healing through efficient circulation.

Innovative Bracing - Booth: 1448
Tendon Track
The TENDON TRAK™ is the only counterforce device that supports tissue making muscle contraction more efficient rather than inhibiting it. Physical therapist designed and clinically tested. Indications include Lateral and Medial Epicondylitis, Osgood Schlatter’s and Sever’s Diseases, Patellar and Achilles Tendinitis. Utilizes a patented method, latex free and made in the USA.

IntelliSkin - Booth 201
IntelliSkin Posture Apparel
Posture apparel that physically connects with your body to achieve optimal posture support and pain relief. We’ve saved 30+ years of elite, front-line sports medicine and wisdom into our clinically-proven PostureCure™ and CoreCure™ technologies to provide both immediate and long-term benefits around posture correction.

[Walk Free, Inc. - Booth 430
[WAALKS 0
CRUTCHES ARE OBSOLETE! See the product that has been sweeping the awards at all the medical device trade shows. The all-new [WALKS 0 hands free ends the pain and inconvenience of conventional crutches! Stop crutching and start [WALKing now!

La Pointique Int’, Ltd - Booth 431
232Z BACK SUPPORT COMPRESSION TOP
Embizo Men’s Support series enhances sports performance with the seamless compression design combined with Power System and Comfort System. The Power System of 232Z stabilizes and supports the shoulders and center of the trunk to maximize energy. Comfort System wicks sweat to keep the body dry during long training.

MCDAVID SPORTS - Booth 601
McDavid Pre-Engineered Kinesiology Tech Kits
Our newly released Kinesiology Tech Kits are designed and pre-engineered for easy, precise application. These kits cover a number of common athletic injury issues. Kinesio tape works at a micro level to reduce pain, soreness and swelling, while offering some minor support. McDavid innovates the innovative.

Mueller - Booth 1231
Medi Kit™ Omni
Mueller Sports Medicine recently teamed up with Meret, the industry leader in first aid bags, to introduce an incredible line of premium athletic trainers’ kits. The Mueller by Meret A.T. Pro Series was built for you, by you, to meet the demands of today’s athletic training professional.

Multi Radiance Medical - Booth 1600
GameDay Laser
“The Nike Oregon Project has been a successful pioneer in training methods, injury prevention and treatment. We believe that Mulit Radiance MR4 Lasers are another innovation that will help us continue to be at the top”—Alberto Salazar, Head Coach. GameDay ™ - The Affordable Personal Athletic Laser by Multi Radiance.

Natus Medical Inc. - Booth 1247
infusion - Gaze Stability Assessment
The Infusion system from NeuroCom® quantifies a patient’s ability to maintain visual acuity and stable gaze while actively moving the head. The Dynamic Visual Acuity (DVA) test quantifies the impact of vestibular ocular reflex (VOR) system impairment on a patient’s ability to perceive objects accurately while moving the head at a given velocity on a given axis. While the Gaze Stabilization Test (GST) quantifies the range of head movement velocities on a given axis over which a patient is able to maintain an acceptable level of visual acuity.

NormaTec - Booth 1531
NormaTec Recovery Systems
Speed healing, reduce muscle soreness and perform at your best. NormaTec’s patented Recovery Systems are designed and assembled in the USA with quality components, and are 30 percent lighter than last year’s models. Our portable, durable and world voltage capable systems minimize swelling and improve circulation. NormaTec, Created by Scientists, Perfected by Athletes®.

Ossur Americas - Booth 921
CIT Custom
The CIT® Ligament Brace, recognized as the “athlete’s choice” for many high contact sports, is the only truly custom brace on the market. Based on a Total Support System, the rigid carbon fiber frame “locks” onto the tibia, providing brace-to-bone contact needed for maximum stabilization of the knee joint.

Ossur Americas - Booth 921
Unloader One® Custom
The Unloader One® is a clinically proven treatment for mild to severe uncompartamental osteoarthritis (OA) of the knee and its associated pain. Its comfortable, lightweight and low-profile design provides pain relief using a 3-Point Lever System. The Unloader One® is a proven choice for treating knee conditions requiring load reduction.

OTC Nutrition LLC - Booth -357
CALSURA Fast Action Drink Tablet
CALSURA Fast Action Drink Tablet provides a highly absorbable form of calcium shown to build stronger bones and reduce stress fracture risk. Simply add to water for a fun, convenient way to get 50 percent of the daily recommended requirements for calcium and vitamin D, plus vitamin C, iron and magnesium.

Perfect Pitch - Booth 654
The Rope Perfect Pitch
Designed for baseball and softball athletes, improving throwing confidence, velocity and accuracy from improper throwing mechanics. Utilized by major league baseball teams and rehab/therapy professionals country-wide, the tactile, auditory and physical feedback allows athletes to adjust pitching and throwing techniques preventing development of bad habits resulting in fatigue and/or injury.

PLH Products - Booth 403
PLH Infrared
For 35 years PLH Products, Inc. has proudly served as the benchmark in the infrared sauna industry. By innovating with the latest technology and the highest standards of quality, PLH Products manufactures infrared products that are used by professional athletes, athletic trainers and AT facilities across the country.

PowerPlay - Booth 402
PowerPlay Pro Pack
PowerPlay® is the most portable, affordable cold and compression therapy system available. The compact device has three ports offering cold and intermittent, sequential compression to reduce pain and swelling, allowing athletes to get back in the game faster. The PowerPlay Pro Pack includes two pumps, two insulated bags, two extender tubes, one of each joint wrap and an additional gel pack for each wrap.

PreventaMed Technologies - Booth 319
Heat Stress Safety Kit and Infinity Line by [x]temp™
The [x]temp Heat Stress Safety Kit is an emergency first response for serious incidents of heat stress. Be prepared to respond and protect your student athletes. Our Infinity line products have limitless applications for safe, simple and rapid cooling. Combining Solo, Duo and Vier cooling packs with strap sets, the [x]temp Infinity line of products are multifunctional and ideal for many injuries.

Q2O LLC - CrampX - Booth 401
CrampX
Q2O CrampX is flavored water you drink for muscle

Flex-Tech QUAD provides 4-way ligament support with resin stays to support medial and lateral stability as well as X and parallel straps for effective anterior and posterior stability to the ACL/PCL.

ZerotZ, Inc. (Sam™) - Booth 1721
Sam™
ZerotZ™ Inc: innovative, powerful ultrasound technology. Sam is a new generation of wearable/portable continuous ultrasound therapy designed for chronic pain, muscle spasms, treatment of joint contractures and local increase of circulation. Oz Inside™ technology allows for a powerful and compact product that will enhance health, wellness and daily living.

THE POWER OF A PLAN
(Continued from page 1)
about 20 minutes outside of New York City, Kelly's father was a “stereotypical Irish detective” and his mother worked as both a waitress and secretary. As a kid, the New Jersey native admitted he hadn’t yet harnessed the personal drive that propels him forward today; it wasn’t until he witnessed his mother become one of the first female police officers in the state of New Jersey that he realized he had the power to make his own dreams come true.

“Because my mom didn’t have an athletic trainer, she enlisted my dad to help her,” Kelly joked. In the 1970s, the police force required a fitness test that required applicants to scale a seven-foot wall. “He built it an inch higher [than needed],” Kelly remembered. “But after months of practicing, she got over [the wall] in 4.5 seconds, instead of the required nine.”

From that point on, Kelly enlisted his own personal will and created plans of action to achieve his own goals, which ranged from learning to land a fighter pilot on an aircraft carrier to nearly losing his life during a mission in Desert Storm before tackling the final frontier of space as a flight commander.

“The real ‘overachiever,’” Kelly said, is his wife, U.S. Congresswoman Gabrielle Giffords. “She seemed like 10 women at once to me,” he said — Ivy League graduate, Fulbright scholar, one of the “gifted and talented” kids at school. “I used to hate those kids!” he laughed. Of all the roles he’s stepped up to fill over the last few decades, Kelly said the most challenging was that of husband and father in 2011, when Giffords barely survived an assassination attempt in Arizona.

“Despite the fact that he put a bullet in her head,” Kelly said, “he hasn’t put a dent in her spirit.” Kelly concluded his remarks, as well as another jam-packed J&J Day, with words of encouragement from his wife, who continues to use the help an
