

Military Challenge Coin Order Form

Challenge coins are a long-standing tradition in the military. They are prestigious symbols of achievement, recognition and comradery. Each coin has unique symbols or mottos that identify the originating group, and are traded, presented and collected between unit members. Challenge coins capture the very essence of military affiliation and instill pride to those that carry them. Today, the popularity of the challenge coin has evolved into more than just a mark of representation for military personnel. It has also become customary to present a challenge coin to dignitaries and special guests to certain locations as a sign of “welcome” and respect.

As the number of athletic trainers involved in the military continue to increase, it is important that recognition of the profession continues to increase as well. NATA would like to offer its active-duty, retired, or civilian personnel members with an opportunity to purchase NATA challenge coins. We hope that these coins provide opportunities for recognition and advancement of athletic trainers throughout the military.

Due to the manufacturing requirements, these coins will only be available for purchase once a year. Orders are due by **April 30, 2014**.
